European Coatings Show 2019, Coatex team shares its latest rheological solutions

As one of the leaders in rheology modifiers, Coatex will reveal its last solutions for low VOC waterborne formulations during ECS 2019 and particularly during its product presentations. Together with other BUs of the Arkema Group, Coatex will welcome you to share its new additives, thickeners and dispersants at the upcoming ECS 2019 in Nuremberg, March 19th-21st 2019, hall 4A booth #313.

Pragmatic approach and careful attention to its partners’ needs are the common drivers of the two Coatex product presentations at the 2019 European Coatings Show.

- **Highly Efficient Nonionic Associative Thickener for High Quality Coatings applied by brush and roller** Catherine Corfias-Zuccalli will demonstrate the key benefits achieved thanks to Coapur™ 3320.
  Thursday, March 21, 2019, 13:10 Hall 9

- **New Wetting and Dispersing agent for Water-Based Industrial Coatings**, Denis Ruhlmann will share the benefits of a new polymeric dispersant, Coadis™ 790, providing outstanding performances of stability, compatibility and versatility when use in waterborne industrial and architectural coating formulations.
  Thursday, March 21, 2019, 13:10 Hall 4

Customized meetings can also be organized with our sales and technical team upon request (contact@coatex.com)

Get ready to visit us at our booth hall 4A #313 to talk to our experts and find out more about our solutions.

Coatex designs and produces rheology additives for aqueous formulations and water-borne processes. With Innovation for Sustainable Development as a core strategy, Coatex is developing high performance additives to serve a wide variety of applications, such as Water-borne Paints & Coatings, Adhesives & Sealants, Paper Coatings, Minerals Processing, Construction, Homecare and Water Treatment. With production sites in France, the Netherlands, USA, China and Brazil, Coatex employs more than 450 people. Coatex is a subsidiary of the ARKEMA group, France’s leading chemicals producer.
