

European Coatings Show Conference 2021: Coatex team presents their latest advances in rheology characterization of formulated systems

As leader in rheological solutions, Coatex offers additives across a variety of applications and particularly to the industry of Adhesives & Sealants.

The European Coatings Show Conference on September 13th, 2021 is a great opportunity for our technical experts to present their latest developments.

Dr Catherine Corfias-Zuccalli, Technical Manager, Adhesives & Sealants Additives, COATEX, will make a talk at 15.30 with a presentation focused on the **Rheological Characterization of Water-Based adhesives & sealants.**

We invite you to register on the [ECS website](#) to attend this new presentation on the latest advances of our technical teams

Our teams are at your disposal to answer your questions contact@coatex.com.

Coatex designs and produces rheology additives for aqueous formulations and water-borne processes. With Innovation for Sustainable Development as a core strategy, Coatex is developing high performance additives to serve a wide variety of applications, such as Water-borne Paints & Coatings, Adhesives & Sealants, Paper Coatings, Minerals Processing, Construction, Homecare and Water Treatment. With production sites in France, the Netherlands, USA, China and Brazil, Coatex employs more than 450 people. Coatex is a subsidiary of the ARKEMA group, France's leading chemicals producer.
